RE: Inspection During Construction

The undersigned, being the contract purchasers of the above-referenced premises, hereby acknowledge that construction sites may be inherently dangerous locations. We also acknowledge that it is typically the policy of Hamlet Homes LLC not to allow a walkthrough of its construction sites without permission and being escorted. Despite this policy we have requested that we be allowed to tour the premises described above. We agree to hold harmless and indemnify Hamlet Homes LLC, and its agents from any claims for any damages or personal injury we may sustain during the course of our walkthrough. We understand that Hamlet Homes LLC will rely upon this indemnification and without it would not be permitting us to enter upon the premise.
